

Mazda6 Bodyshop Manual Supplement

FOREWORD

This bodyshop manual is intended for use by technicians of Authorized Mazda Dealers to help them service and repair Mazda vehicles. It can also be useful to owners and operators of Mazda vehicles in performing limited repair and maintenance on Mazda vehicles.

For proper repair and maintenance, a thorough familiarization with this manual is important, and it should always be kept in a handy place for quick and easy reference.

All the contents of this manual, including drawings and specifications, are the latest available at the time of printing. As modifications affecting repair or maintenance occur, relevant information supplementary to this volume will be made available at Mazda dealers. This manual should be kept up-to-date.

Mazda Motor Corporation reserves the right to alter the specifications and contents of this manual without obligation or advance notice.

All rights reserved. No part of this book may be reproduced or used in any form or by any means, electronic or mechanical including photocopying and recording and the use of any kind of information storage and retrieval system-without permission in writing.

APPLICATION:

This manual is applicable to vehicles beginning with the Vehicle Identification Numbers (VIN), and related materials shown on the following page.

CONTENTS

Title	Section
GENERAL INFORMATION	I
CONSTRUCTION	II
PANEL REPLACEMENT	III
WATER-PROOF AND RUST PREVENTIVE TREATMENT	IV
DIMENSIONS	V
PLASTIC BODY PARTS	VI
PRIMARY COLOR MIXTURE CHART FOR BODY COLORS	VII

There are explanation given only for the sections marked with shadow (■).

WARNING

Servicing a vehicle can be dangerous. If you have not received service-related training, the risks of injury, property damage, and failure of servicing increase. The recommended servicing procedures for the vehicle in this workshop manual were developed with Mazda-trained technicians in mind. This manual may be useful to non-Mazda trained technicians, but a technician with our service-related training and experience will be at less risk when performing service operations. However, all users of this manual are expected to at least know general safety procedures.

This manual contains "Warnings" and "Cautions" applicable to risks not normally encountered in a general technician's experience. They should be followed to reduce the risk of injury and the risk that improper service or repair may damage the vehicle or render it unsafe. It is also important to understand that the "Warnings" and "Cautions" are not exhaustive. It is impossible to warn of all the hazardous consequences that might result from failure to follow the procedures.

The procedures recommended and described in this manual are effective methods of performing service and repair. Some require tools specifically designed for a specific purpose. Persons using procedures and tools which are not recommended by Mazda Motor Corporation must satisfy themselves thoroughly that neither personal safety nor safety of the vehicle will be jeopardized.

The contents of this manual, including drawings and specifications, are the latest available at the time of printing, and Mazda Motor Corporation reserves the right to change the vehicle designs and alter the contents of this manual without notice and without incurring obligation.

Parts should be replaced with genuine Mazda replacement parts or with parts which match the quality of genuine Mazda replacement parts. Persons using replacement parts of lesser quality than that of genuine Mazda replacement parts must satisfy themselves thoroughly that neither personal safety nor safety of the vehicle will be jeopardized.

Mazda Motor Corporation is not responsible for any problems which may arise from the use of this manual. The cause of such problems includes but is not limited to insufficient service-related training, use of improper tools, use of replacement parts of lesser quality than that of genuine Mazda replacement parts, or not being aware of any revision of this manual.

REAR COMBINATION LIGHT	LENS	PMMA	ACRYLIC	80 {167}
	HOUSING	AAS	AAS	70 {158}
OUTER HANDLE	HANDLE BASE	PC-PET	POLYCARBONATE-PET	80 {167}
	HANDLE LEVER	PC-PBT	POLYCARBONATE-PBT	80 {167}
REAR BUMPER		PP	POLYPROPYLENE	100 {212}
REAR FINISHER		ABS	ABS	90 {194}
ROOF MOULDING		PVC	POLYVINYLCHLORIDE	95 {203}
BELTLINE MOLDING		PVC	POLYVINYLCHLORIDE	95 {203}
REAR SPOILER		ABS	ABS	90 {194}
SIDE STEP MOLDING		PP	POLYPROPYLENE	100 {212}
SHROUD PANEL		PP	POLYPROPYLENE	100 {212}
ROOF RAIL		PP	POLYPROPYLENE	100 {212}

Note

- The application of temperatures higher than heat resisting temperatures may result in part deformation.
